OUR SERVICES

01

GLASS SCRATCH REMOVAL

Restore scratched architectural glass without replacement, reducing cost, delays and material waste.

03

PREMIUM MESH SOLUTIONS

Supply & installation of premium insect screen and architectural mesh systems for residential and commercial applications.

02

SURFACE PROTECTION SYSTEMS

Protect glass and aluminium surfaces using specialized peelable coatings and nano protection systems during construction and handover.

04

GLAZING & FINISHING SOLUTIONS

Professional glazing support, sealant finishing, rectification and final handover detailing.

GLASS SCRATCH REMOVAL

Restoring clarity and perfection to premium glass surfaces through precision techniques. Our specialized glass scratch removal service eliminates surface imperfections, deep scratches, and abrasions from architectural glass, restoring optical clarity without costly replacement. Using advanced polishing systems and specialized techniques, we restore clarity while minimizing replacement costs and project delays.

BENEFITS

- Avoid costly replacement
- Faster project handover
- Restore optical clarity
- Cost-effective solution

SURFACE PROTECTION

APRO provides specialized surface protection systems for glass, aluminium and architectural finishes during construction and handover stages. Our solutions help prevent scratches, contamination and surface damage, preserving material quality while reducing rectification costs and project delays.

SUITABLE FOR

- Glass
- Aluminium
- Stainless Steel
- Powder Coated Surfaces
- ACP Panels

PREMIUM MESH SOLUTIONS

APRO delivers premium mesh solutions designed to combine functionality, comfort and architectural appeal. Our systems are selected for residential and commercial needs, providing protection while maintaining aesthetics, visibility and ventilation. Whether for villas, apartments or high-end developments, each installation is precision-fitted to ensure durability and a refined finish.

Our solutions include premium insect screen systems, stainless steel architectural mesh and customized screening solutions tailored to project requirements. From balcony enclosures and window protection to decorative and privacy applications, we focus on delivering practical, visually refined solutions that complement modern architectural standards across the UAE.

GLAZING & FINISHING SOLUTIONS

APRO provides specialized glazing support and finishing works to achieve premium handover standards.

OUR SERVICE INCLUDES

- Sealant finishing
- Glass rectification
- Aluminium touch-up works
- Final snag rectification
- Handover quality detailing

We support contractors, consultants and developers in achieving clean, professional handover standards through practical site-based finishing solutions.

THE **APRO** DIFFERENCE

At **APRO**, we focus on practical, quality-driven solutions that help reduce rectification, protect finishes and support premium project handovers across the UAE.
